# Welcome Message

# FSPA Nigeria

At FSPA Nigeria, we believe that the journey to parenthood should never be walked alone. Our mission is to provide emotional, educational, and practical support to individuals and couples navigating fertility challenges.

As we join hands with AFRH for the 2025 Annual International Conference and the Fertility Open House, we reaffirm our commitment to bridging clinical excellence with human connection.

## ABOUT FSPA NIGERIA

FSPA is committed to being the gold standard in providing fertility support in all aspects of surrogacy management, advocacy, legal services, counselling and education for those undergoing fertility treatments in Nigeria. Our membership includes surrogacy agencies who coordinate and manage the non-clinical aspects of the surrogacy journey from surrogate and donor recruitment , the management of the surrogate during pregnancy and beyond the birth helping parents have a reliable and professional team to handle the complexities of assisted reproduction. Our counsellors are on hand to provide the much needed emotional and psychological support during an emotionally difficult process. Our team of fertility advocates have been through the same journey as the parents and advocate and educate for more public awareness, empathy and policy change regarding infertility in Nigeria. We also have fertility lawyers who are well equipped to advise on the complex legal dimensions of surrogacy and donor conception ensuring that the interests of all concerned are protected and parents can safely take their children home whether it may be within or outside Nigeria.

# Our Mission & Values

## › Mission

Empower and support those facing fertility challenges through counseling, education, advocacy, and community.

## › Values

Compassion, Professionalism, Excellence, Integrity, Inclusion, Collaboration.
